

Machine & Equipment Cleaner

About Product

We have designed specialized heavy duty concentrate fluids for cleaning of work shop machines & equipment's. Extremely effective in removal of heavy deposits of lubricating oils, cutting oils, sticky soils, metal particles, carbon deposits & any other forbidden soils. Non-irritating to skin & does not generate fumes, bad odour while cleaning. IROX Machine & Equipment cleaners are suitable to use by spraying, wiping out with cleaners. Our MEC is free from corrosive chemicals, caustic so non harmful to surface of machine or color of the machine. We have specialized variants of solar panel cleaners depend upon the type of soils & deposits.
