

# Thermal Compound for LED

## IROX#S6

Specially designed heavy duty thermal compound for high end applications. IROX #S6 has excellent oxidation & thermal resistance so offer long life performance. IROX#S6 never melts or dries even if it's used for longer durations of 5 to 8 years. IROX # S6 is non-hazardous & non harmful to skin so one can directly apply by hand. IROX#S6 has excellent long term bonding to metallic & nonmetallic surfaces. IROX#S6 never loses its consistency & viscosity even it's used for continuous operations of more than 5 years.

### Benefits:

- Designed for high end electronic applications
- Operating life of minimum 5 years
- Thermal Conductivity: 1.6 W/ MK
- Excellent non drip formula
- Long term adhesion to the surface
- Excellent bonding
- No oil separation
- Non hazardous

**Method of Use:** By Hand, by Stamping or by printing

**Packing:** 6 Kg, 18 kg, 50 Kg
